HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION:

The following describes the ways we may use and disclose health information that identifies you ("Health Information"). Except for the purposes described below, we will use and disclose Health Information only with your written permission. You may revoke such permission at any time in writing to our office.

For Treatment. We may use and disclose Health Information for your treatment and to provide you with treatment-related health care services. For example, we may disclose Health Information to doctors, nurses, technicians or other personnel, including people outside our office, who are involved in your medical care and need the information to provide you with medical care.

For Payment. We may use and disclose Health Information so that we or others may bill and receive payment from you, an insurance company or a third party for the treatment and services you received. For example, we may give your health plan information about you so that they will pay for your treatment.

For Health Care Operations. We may use and disclose Health Information for health care operations purposes. These uses and disclosures are necessary to make sure that all of our patients receive quality care and to operate and manage our office. For example, we may use and disclose information to make sure the medical care you receive is the highest quality. We may also share information with other entities that have a relationship with you (for example, your health plan) for their care operations activities.

For Appointment Reminders, Treatment Alternatives and Health Related Benefits and Services. We may use and disclose Health Information to contact you to remind you that you have an appointment with us. We also may notify your family about your location or general condition or disclose such information to an entity assisting in disaster relief efforts.

For Research. Under certain circumstances, we may use and disclose Health Information for research. For example, a research project may involve comparing the health of patients who received one treatment to those who received another for the same condition. Before we use or disclose Health Information for research, the project will go through a special approval process. Even without special approval, we may permit researchers to look at records to help them identify patients who may be included in their research project or for other similar purposes, as long as they do not remove or take a copy of any Health Information.
